

THERMAL BINDING COVERS

Ambassador POD

Bindomatic® Ambassador POD cover features a hard, leather-style, textured outer cover and black matte interior liner, and a debossed area to fit a label that you create/print. They can be personalized further by foil printing or embossing. All covers come with a strip of glue in the spine and pre-scored hinges in front and back.

Die-cut labels are included so you can design your own unique label using the software of your choice (Word, PPT, Photoshop, etc.) and print with any printer that is certified to handle normal label paper.
